

Term 1: Free practice test

Grade 4 • Mathematics • Term 1

Gr:

Name:

Complete each question. Show all your working in the space provided.

1. $3264 - ___ = 2183$

2. Round 4901 and 1286 to the nearest 100, then estimate the answer to $4901 + 1286$.

3. $60 \div ___ = 30$

4. Use the formal division method to solve $64 \div 8$. Show all your steps.

5. $2358 + 1052 =$

6. $4690 + 1862 =$

7. $6285 + 3484 =$

8. $8442 + 4941 =$

9. $15 \div 3 =$

10. $6981 - ___ = 4369$

11. First estimate the answer, then calculate the exact answer: $48 \div 8 =$
