

Term 2: Free practice test

Grade 7 • Mathematics • Term 2

Name: _____

Gr: _____

Complete each question. Show all your working in the space provided.

1. Arrange these integers from smallest to largest: -58, 82, 65, -91

2. Express 27 as a power of 3.

3. Is the answer to -11×18 positive or negative?

4. Arrange these integers from smallest to largest: 18, 98, 10, 85

5. Is 64 a perfect square? Explain.

6. Write two integers whose absolute value is 40.

7. What is the square root of 9?

8. Is the answer to -11×-14 positive or negative?

9. Write $11 \times 11 \times 11$ in exponential form.

10. Positive $\times$ Negative = ---

11. Write $4 \times 4 \times 4$ in exponential form.

12. Express 4 as a power of 2.

13. Write two integers whose absolute value is 76.

14. Write $12 \times 12 \times 12$ in exponential form.

15. Negative $\times$ Negative = ---

16. Write $10 \times 10 \times 10$ in exponential form.

Term 2: Free practice test

Grade 7 • Mathematics • Term 2

MEMO

NR	Antwoord / Answer
1	-91, -58, 65, 82
2	3^3 (of/or 27)
3	Negative
4	10, 18, 85, 98
5	Yes
6	40 en/and -40
7	3
8	Positive
9	$11^3 = 1331$
10	Negative
11	$4^3 = 64$
12	2^2 (of/or 4)
13	76 en/and -76
14	$12^3 = 1728$
15	Positive
16	$10^3 = 1000$
